

Build Targeted Prospect Lists to Expand Your Audience and Break Into New Markets.

FIND YOUR BEST AUDIENCE WITH INSIDEVIEW TARGET

Marketers depend on new leads for growth. But as you search for more opportunities to expand your total addressable market, it's difficult to uncover new prospects that are also high quality. It's no longer good enough to just buy broad contact lists to add more prospects at the sake of quality and relevance.

InsideView Target draws from a massive database of more than **35 million B2B decision makers across 15 million companies** worldwide, providing the demographic and firmographic details you need to pinpoint ideal prospects for your campaigns.

Targeted email campaigns achieve **1,800% more revenue and 267% higher click-through rates¹**

INSIDEVIEW TARGET CAPABILITIES

Pinpoint your target audience

Search our global database of relevant companies and contacts to find the ideal prospects for your sales and marketing campaigns. InsideView's B2B data and intelligence platform triangulates data from over 40,000 sources, lets you filter on demographics, firmographics, and business connections, and delivers the data directly into easily exportable lists.

Export results directly into your CRM or marketing automation platform

Easily export custom lists into CRM or marketing automation applications with just a few clicks. Target offers a direct integration into Eloqua, Marketo, and Salesforce platforms. Key data fields are automatically mapped and de-duped against your existing leads so you never pay for leads already in your database. For other marketing automation systems, you can always use our universally accepted, easy-to-import Excel/CSV file export.

Let business signals guide you to the right targets

Screen your list results based on relevant events, such as product launches, acquisitions, new executives and promotions, and financial results to increase every campaign's relevance.

Customize your results on-the-fly

Modify your list results by making real-time adjustments to the search criteria. Add and remove fields instantly by clicking on dynamic inline filters. All the while, your search results total is displayed to keep track of your list size.

Build high-quality, hyper-targeted lists of prospects based on your custom criteria.

INSIDEVIEW TARGET FEATURES

- Customize lists based on contact demographics and company firmographics.
- Filter by relevant business events, like product launches, acquisitions, new executives, and financial results.
- Fine-tune the desired audience and immediately see how the changes impact the number of matching contacts.
- Use prebuilt integrations to push lists directly into Eloqua, Marketo or Salesforce, with over 80 fields of information ready to be transferred automatically.
- Never pay for leads you already have in your Eloqua, Marketo, or Salesforce database.

The InsideView Advantage

InsideView helps businesses drive rapid revenue growth by empowering business leaders to discover new markets, target and engage the right buyers, and manage customer data quality.
